BERTSCHfoodtec
Cleaning In Place

» Quality is our tradition

»First-class hygiene – Cleaning In Place«

The name BERTSCH stands for gentle and hygienic processing of natural milk products for over 90 years. Our innovative Cleaning In Place (CIP) is at the heart of every production line to ensure high-quality dairy products.

Modern production system with complex piping place high demands on CIP. At BERTSCHfoodtec, we design and build tailored cleaning systems in all areas of application. To provide our customers with optimum system availability and cost-efficiency.

» BERTSCHfoodtec – your partner for Cleaning In Place

- » Uncompromising quality
- » Innovative process technology
- » Economic and efficient cleaning
- » High-quality components
- » Years of experience and expertise

»Tailor-made Cleaning In Place for your dairy«

Cleaning In Place is an essential part of every production line. We place great importance on accurate and safe cleaning. Our cleaning systems are tailored to your needs, to achieve optimum cleaning results.

BERTSCHfoodtec designs, supplies and installs cleaning systems tailored to your production. Our systems are equipped with the latest process technology. Linked with high sensitive measuring equipment, cleaning parameters are constantly monitored and adjusted to guarantee maximum cleaning performance, maximum economy and increased availability. To further ensure quality and energy-efficiency, BERTSCHfoodtec offers CIP cleaning systems including automation technology.

» Highest quality

- » Stainless-steel
- » Proven valve technology
- » Automatic dosing of the cleaner
- » Tubular heat exchangers
- » Cylindrical or cubic tank design
- » High-end measurement and control technology
- » Customers all over the world

» Customised automation

- » Easy to use visualisation
- » Programmable Siemens PLC control
- » Constant cleaning process control
- » Detailed logging
- » Remote maintenance
- » Integration into existing control systems

»Innovative process technology for smooth operations«
